qbo

Innovador producto que combina una tira de LED con cubierta de silicona. Aporta una luz completamente uniforme y una gran flexibilidad permitiendo su colocación en distintas superficies, especialmente curvas. Disponible en varias temperaturas de color. Bajo pedido puede cambiarse la tira de su interior. QBO recomienda usar tiras con 240 puntos de LED por metro para conseguir una iluminación uniforme. La emisión de luz se realiza por tres caras (superior y laterales). Puede solicitarse en tramos cortados a medida de hasta 5 metros. Los extremos van sellados con silicona para conseguir el grado de protección IP65. Dimensiones: 13x13x5000mm

Innovative product that combines a LED strip with silicone cover. Provides completely uniform light emission and great flexibility allowing to be placed over different surfaces, specially on curved ones. It is available in several color temperatures. On request, inside LED strip can be changed. QBO recommends to use strips with 240 LED points per meter to achieve homogeneous lighting. Light is emitted from 3 sides (upper and laterals). Can be provided in the lengths desired up to 5 meters. Ends are sealed with silicone so as to have IP65 degree of protection. Dimensions: 13x13x5000mm
