Luminaria puntual conformada por un *downlight*, en versión con y sin marco. Se compone de placa LED Tridonic fabricada en Europa de alta eficiencia y fácil disipación de calor, así como de un reflector *LEDIL*, que garantiza la mayor calidad de emisión de luz y un bajo nivel de deslumbramiento, idóneo para espacios en los que la normativa lo requiera. Driver remoto. Disponible en versiones no regulable, regulable *dali* y *tunable white*. Medidas: 48 x 48 mm en versión trim 68 mm de diámetro en versión *trimless*.

Puntual luminaire consisting of a downlight, in framed and frameless versions. It consists of a Tridonic LED plate manufactured in Europe with high efficiency and easy heat dissipation, as well as a LEDIL reflector that ensures the highest quality of light emission and low glare, ideal for spaces where regulations require it. Remote driver. Available in non-dimmable, dimmable dali and tunable white versions. Dimensions: 48 x 48 mm in trim version 68 mm diameter in trimless version.
